substance or mixture

Specific hazards

No specific firefighting precautions applicable when small quantities are involved in the fire

Hazardous combustion products

Carbon dioxide (CO₂). Carbon monoxide (CO). Nitrous gases (NO_x). Oxides of sulphur

Advice for firefighters

Protective equipment for fire-fighters

Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

6. ACCIDENTAL RELEASE MEASURES

**Personal precautions,
protective equipment and
emergency procedures**

Personal precautions

Take care as floors and other surfaces may become slippery

Environmental precautions

Environmental precautions

Large Spillages - Do not discharge into drains or watercourses or onto the ground

**Methods and material for
containment and cleaning up**

Methods for cleaning up

Take care as floors and other surfaces may become slippery. Large Spillages: Absorb spillage with suitable absorbent material. Flush contaminated area with plenty of water. Wash thoroughly after dealing with a spillage. For waste disposal, see Section 13

Reference to other sections

See Section 11 for additional information on health hazards. See Section 12 for additional information on ecological hazards. For waste disposal, see Section 13.

7. HANDLING AND STORAGE

Precautions for safe handling

Usage precautions

Read and follow manufacturer's recommendations on label. Handle all packages and containers carefully to minimise spills. Keep container tightly sealed when not in use

**Advice on general occupational
hygiene**

Remove contaminated clothing and protective equipment before entering eating areas. Wash at the end of each work shift and before eating, smoking and using the toilet.
